EXPERIENCE

OffensioX, Remote — IT Operations Intern

July 2024 - August 2024

- ❖ Task 1: Optimize LinkedIn Profile
- ❖ Task 2: Build a simple welcome (landing) page with a navbar
- ❖ Task 3: Made a Career Page for the OffensioX website

ITSolera, Remote — Generative AI Intern

July 2024 - Sept 2024

- ❖ Task: Trend Analysis for a Virtual Fashion Stylist who aims to design an AI that suggests clothing and accessory combinations

PROJECTS

Analog Clock — Next.js

- ❖ Created a real-time analog clock in React with Tailwind CSS, dynamically updating hour, minute, and second hands.
- ❖ Used useEffect for efficient interval management, ensuring smooth updates every second.
- ❖ Applied CSS transformations for hand rotations, enhancing visual appeal with a custom clock face.

Email Validator — Next.js

- ❖ Developed an email validation app using React and Next.js, allowing users to input their email for real-time validation.
- ❖ Implemented asynchronous API calls to fetch validation results from an external service, displaying results dynamically in the UI.
- ❖ Integrated a responsive navigation menu with a mobile-friendly design, enhancing user experience across devices.

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript
Frameworks: TailwindCSS, Next.js
Technologies: GitHub, MS Office
Concept: Object Oriented Programming

HOBBIES

Youtube: Educational based videos

AWARDS

Amazon Virtual Assistant – E-Comrades
