## EXPERIENCE

### OffensioX, Remote — IT Operations Intern

July 2024 - August 2024

- ❖ Refreshed the company's LinkedIn with new visuals and copy, strengthening brand image and boosting engagement
- ❖ Built a responsive Next.js + Tailwind landing page with intuitive navigation to welcome new visitors.
- ❖ Launched a React + Tailwind "Careers" section on the OffensioX site to clearly list openings and simplify applications

## PROJECTS

### Analog Clock — Next.js

- ❖ Developed a live analog clock in React using JS timers and useEffect for smooth hour/minute/second hand updates.
- ❖ Used React's useEffect to handle timers and deliver seamless clock-hand animation.
- ❖ Applied CSS transforms to rotate each hand, giving the clock a polished, dynamic look.

### Email Validator — Next.js

- ❖ Created an email validation app in React/Next.js that checks addresses on the fly via a third-party API.
- ❖ Engineered async API calls to surface instant validation results in the UI.
- ❖ Added a mobile-friendly navigation menu to ensure seamless use across devices.

## SKILLS

Languages: JavaScript, Python  
Frameworks: Next.js
